GOLEM ESP 6E

Code Nr. G 06 21

Electric drive adjustable height of 640 – 940 mm, electric drive adjustable leg segment, electric drive adjustable back tilt of 0° to +80°, fixed seat.

GOLEM ESP 6ET

Code Nr. G 06 22

Electric drive adjustable height of 640 – 940 mm, electric drive adjustable leg segment, electric drive adjustable back tilt of 0° to +80°, electric drive adjustable seat (Trendelenburg) tilt of 0° to +20°. The table is equipped with electronics enabling the user to program 3 operating positions that are automatically set using a respective button. This feature allows for easy switching between the initial and operating positions of the table without time delays.

The GOLEM ESP series tables are designed for ambulatory care and, in addition to examinations in the gynaecological position, they allow for quick and easy switching to the lying position or the position for ultrasonic examination including vaginal probe. The great design and advanced function of the electrically lifted leg segment will facilitate your work and increase the patient's comfort during examinations. The low step-on height of 640 mm allows the patient to get on directly from the floor, without the necessity of using a foot step.

The 620 mm wide operating surface is covered with seamless artificial leather in a colour of your choice; it is divided into a leg segment, a seat with an opening and a seat backrest with a lifted head segment. All electric drives are operated manually and the positions can be changed even if the table is fully loaded. Lengths of the segments: seat 470 mm, backrest 510 mm, head 400 mm, legs 490 mm.

All versions are always fully equipped: polyurethane Goepel leg supports or heel supports (depending on your request) with a jointed fixture, stainless bowl, hand rails for the patient, paper roll holder to be used for the whole surface, the backrest and the seat, or for the seat only.

All elements can be easily adjusted for you and your patient's comfort.

The weight of the table is 90 – 112 kg depending on version; the carrying capacity is 150 kg.

The build-in dimensions of the table are approx. 800 × 1 400 mm.

Each version can be further equipped according to your request.
