## **GOLEM ESP 6E**

**Code Nr. G 06 24**

Electric drive adjustable height of 640 – 940 mm, electric drive adjustable leg segment, electric drive adjustable back tilt of 0° to +80°, manually adjustable head segment tilt of ± 30°, fixed seat.

## **GOLEM ESP 6ET**

**Code Nr. G 06 25**

Electric drive adjustable height of 640 – 940 mm, electric drive adjustable leg segment, electric drive adjustable back tilt of 0° to +80°, manually adjustable head segment tilt of ± 30°, electric drive adjustable seat (Trendelenburg) tilt of 0° to +20°. The table is equipped with electronics enabling the user to program 3 operating positions that are automatically set using a respective button. This feature allows for easy switching between the initial and operating positions of the table without time delays.

The tables have all functions of the GOLEM ESP series necessary for ambulatory care and they include additional equipment for procedures.

A high level of operator and patient safety is ensured by covering of all parts of the table with grey plastic casings.

The 620 mm wide operating surface is covered with seamless artificial leather in a colour of your choice; it is divided into a leg segment, a seat with an opening and a seat backrest with a lifted head segment. All electric drives are operated manually and the positions can be changed even if the table is fully loaded. Lengths of the segments: seat 470 mm, backrest 510 mm, head 400 mm, legs 490 mm.

All versions are always fully equipped: EUROrails for the fastening of accessories around the seat and backrest, Removable polyurethane Goepel leg supports or heel supports (depending on your request) with a jointed fixture, stainless bowl, removable hand rails for the patient, paper roll holder to be used for the whole surface, the backrest and the seat, or for the seat only.

All elements can be easily and comfortably adjusted and removed from the table, which means that the patient can also get on from the side.

The weight of the table is 98 – 116 kg depending on version, the carrying capacity is 150 kg.

The build-in dimensions of the table are approx. 800 × 1400 mm.

Each version can be further equipped with accessories for procedures according to your request.
