

# GOLEM

The table is designed for examinations in the lying and knee-breast positions or even in the gynaecological position. It enables easy changing of positions with regard to the patient's and doctor's comfort.

The 600 mm wide operating surface is covered with washable artificial leather in a colour of your choice. It is divided into a head segment, a body with an opening and a removable leg segment. The length of the surface is 1950 mm. All electric drives are operated manually and the positions can be changed even if the table is fully loaded.

The table is fully equipped: EUROrails around the leg segment, removable platform for kneeling, adjustable abdomen support for the knee-breast position, paper roll holder.

All elements can be easily and comfortably adjusted and removed from the table, which means that the patient can also get on from the side.

Electric drive adjustable height of 640 – 940 mm, manually adjustable head segment tilt of  $\pm 30^\circ$ , removable leg segment can be mounted vertically or horizontally or take off from table.

The build-in dimensions of the table are approx. 650 x 1950 mm.

The weight of the table is 102 kg, the carrying capacity is 150 kg.
