

GOLEM VOJTA

The GOLEM VOJTA table is designed for examining and rehabilitation. A modern lifting system allows for a table with an operating surface of up to 120 cm in width and at the same time with a great carrying capacity, rigidity and stability.

The use of a modern moving mechanism with four separate legs ensures safe, quick and silent operation. Maintenance is also very easy. The free space under the table can be utilized for any purpose.

The one-segment operating surface without a facial opening with dimensions of 800 x 2000 mm is covered with artificial leather in a colour of your choice. The electric drive is operated by switches located under the surface on both sides; the position can be changed even if the table is fully loaded.

Electric drive adjustable height of 550 – 850 mm, stationary version with adjustable legs.

The weight of the table is 80 -100 kg depending on version, carrying capacity: 200 kg.

Code Nr. G 19 01

ACCESSORIES:
