

GOLEM O Code Nr G 10 01

Surgical chair

A comfortable upholstered chair for the surgeon, designed mainly for surgery rooms. Travelling version with Ø 75 mm braked wheels, electric drive adjustable height of 470 – 670 mm, height adjustment carried out by the surgeon using a foot pedal. The height and tilt of the backrest are adjusted manually.

The sophisticated and very functional mechanism of adjustable hand rests makes it possible to find an optimal position for everybody. The rests can be easily folded off for easy access.

All metal parts are made of stainless steel; the artificial leather is usually black - antistatic.

Carrying capacity: 150 kg, weight: 45 kg.

ACCESSORIES:

Built-in battery with fully automatic external charger Code Nr. D 10 01
frequency of charging 1 – 2 times per week
