

GOLEM

Upgraded variant of the GOLEM 6ET table, suitable for all patients' positions: lying, sitting, gynaecological, and urinating standing up.

A high level of operator and patient safety and operating hygiene is ensured by the covering of all parts of the table with grey plastic casings. The basic version is stationary; the 600 mm wide operating surface is covered with artificial leather in a colour of your choice and it is divided into a seat with a deep cut-out, a removable leg segment with a cut-out fill, and a seat backrest with a head segment. All electric drives are operated manually and the positions can be changed even if the table is fully loaded. Lengths of the segments: seat 400 mm, backrest 500 mm, head 400 mm, additional legs 550 mm.

The table is fully equipped: EUROrails for the fastening of accessories around the seat, removable polyurethane Goepel leg supports with a jointed fixture, foot step with a non-slip finish, stainless bowl, removable hand rails for the patient, paper roll holder to be used for the whole surface, the backrest and the seat, or for the seat only, Uroflowmeter holder for the doctor's right hand (or left hand by request).

All elements can be easily and comfortably adjusted and removed from the table, which means that the patient can also get on from the side. Electric drive adjustable height of 640 – 940 mm, electric drive adjustable back tilt of 0° to +80°, manually adjustable head segment tilt of $\pm 30^\circ$, electric drive adjustable seat (Trendelenburg) tilt of 0° to +30°.

The table is equipped with electronics enabling the user to program 3 operating positions that are automatically set using a respective button. This feature allows for easy switching between the initial and operating positions of the table without time delays.

The build-in dimensions of the table are approx. 800 x 1400 mm. The weight of the table is 112 kg, the carrying capacity is 150 kg.
